## Caution

- Do not reuse
- Store in dry place
- Store away from sun-light
- T <20°c /68°F

# SPIRO - METER

Bharat Medical Technology manufactured best in quality spirometer which is specially designed with 3 stage chamber to provide efficient exercise. Three different colour sphere rise proportionately to the inspiration

Spirometer is consist of

1. Transperent Three volume chamber
2. Base plate
3. Sphere of red, yellow & blue colour
4. Connecting tube
5. Mouth piece

It is come in individually packed in box come with bulk packaging of 25 pcs.

## Features

- Innovative system to exercise for lungs.
- Improves Respiratory parameters.
- Spirometer is a vital tool for the lungs exercise.
- It improves Respiratory parameters.
- Manufactured from soft , light weight ,non- toxic and pyrogen free.

## INTENDED USE

A spirometer measures how much air your lungs can hold and how quickly you can breathe out.

## Caution

- Do not reuse
- Store in dry place
- Store away from sun-light
- T <20°c /68°F

# Urinoflex - Urometer

Bharat Medical Technology provide one of the best Uro meter. Our uro meter is designrd for measurment of hourly urine output. It is made with clear & transperent measured volume chamber which provide accurate measurment of the urine. It is directly atatched with the urine bag. it also come with unique designed handle to hang it easily with the patient bed.

It comes in the box packaging as well as pouch packaging as per follow:

1. Individually packed in sterile pouch which comes in master box of 100pcs.
2. Sterile & individually packed in box and comes in bulk pack of box of 50Pcs.

## Features

1. Urine bag with measured volume chamber.
2. Clean transparent measured volume chamber allows precise reading.
3. Soft and kink resistant pvc tubing
4. Germs and liquid tight
5. Highly flexible and bend-protected tube
6. Foldable hanger with tube holder for bed side hanging
7. Sterile, disposable, non-pyrogenic

## INTENDED USE

Latex-free, packed sterile, for single use only Individual packed.

## Caution

- Do not reuse
- Store in dry place
- Store away from sun-light
- T <20°C /68°F

# Mucus extractor

Bharat Medical Technology manufacture top notch mucus extractor which is made from soft & non-toxic medical grade material.

Mucus extractor consist of:

1. one transparent container
2. one tracheal suction tube

Mucus extractor is packed in sterile, individually pack pouch which contains 25 pcs in pack & 250 Pcs comes in bulk box packing.

## Features

- Made from soft, non-toxic, medical grade PVC material.
- Transparent chamber used for collecting the extracted material.
- Tube design with round open tip helps in trauma less intubation.
- Suction tubes design with funnel connector for connection to the suction equipment.

## INTENDED USE

Used for aspiration of secretion from oropharynx in newly born babies to ensure free respiration.

## Caution

- Do not reuse
- Store in dry place
- Store away from sun-light
- T <20°c /68°F

# Cord clamp

Bharat Medical Technology manufactures best in quality cord clamp which is manufactured from bio compatible medical grade polymer.

It is suitable for clamping an umbilical cord of newly born baby.

It is designed with grooves all along the length to prevent slipping & distinct lock for correct locking of umbilical cord.

It is packed in individually sterile pouch in box of 100 which comes in pack of 5000 in bulk packaging.

## Features

- Finger grip ensure safe and convenient handling.
- Manufactured from non-toxic medical grade polymer.
- Easy Re-open facilities.
- Sterile, non-toxic and pyrogenic free.

## INTENDED USE

The cord clamp helps to stop blood flow from the three blood vessels that travel from the placenta through the umbilical cord, and the cord is then cut close to baby's bellybutton.

## Caution

- Do not reuse
- Store in dry place
- Store away from sun-light
- T <20°C /68°F

# NEBULIZER MASK

Bharat Medical Technology manufacture best in quality Nebulizer Mask. It is made from Medical grade soft PVC material which is non toxic and non irritant.

Soft mask design to provide superior comfort fitting to our Patient.

We provide adjustable elastic strap for proper positioning of mask on the nasal area

Our Nebulizer Mask comes in sterile packaging which is individually packed in sterile pouch.

Bulk pack of 50m Pcs Per box.

## Features

- Soft, clear aerosol mask with Anatomical form is ideal for long term use
- Adjustable elastic strip and integrated nose clip for proper positioning of mask
- The nebulizer kit just plugs into the standard fitting located at the bottom of the mask
- Tube length : 210 cm

## INTENDED USE

Nebulizers can be used to deliver many types of medicines. The medicines & moisture help control breathing problems like wheezing and help loosen lung secretions.

## Caution

- Do not reuse
- Store in dry place
- Store away from sun-light
- T <20°c /68°F

# Nasal cannula

Bharat Medical Technology is the place for best in quality product and nasal cannula is one of them. Nasal cannula is manufactured from soft and non toxic material.

It's shape is design to facilitates easy connection to oxygen source.

This system provide maximum freedom to patient's mouthfree for nutritional & communication purpose

Bharat Medical Technology provide sterile as well as non sterile packaging of urine bag as follow:

1. Individual Packed in pack of 25 in Master box of 250 pcs.
2. Non sterile bulk packed in box of 250pcs in master box of 500 pcs.

## Features

- Twin prong/soft nasal are designed to ensure equal volume of oxygen to both the air passages
- Star lumen main tube to avoid accidental nasal tips for maximum patient comfort.
- Manufactured from soft , light weight ,non- toxic and pyrogen free.
- Tube length : 210 cm

## INTENDED USE

A nasal cannula is a device that gives you additional oxygen (supplemental oxygen or oxygen therapy) through your nose.

## Caution

- Do not reuse
- Store in dry place
- Store away from sun-light
- T <20°c /68°F

# VENTILATOR KIT

Bharat Medical Technology manufacture premium ventilator kit which is fits to all standard equipment.

It is manufactured from non-toxic & bio compatible material.

It's soft and tight connector is designed for flexibility throughout the critical care management.

Available option.

1.with filter

2. without filter

It comes in sterile individual pouch.

Bulk packaging is available 50pcs per box

## Features

- Ventilator circuit standard connection (15mm,22mm) soft and seal tight for flexibility throughout the care management.
- The ventilator circuit assists the patient in Breathing Bacteria Free Air.
- Manufactured from soft , light weight ,non- toxic and pyrogen free.

## INTENDED USE

The ventilator circuit use to connects the ventilator to a patient, as well as any device that is connected to the circuit tubing.

## Caution

- Do not reuse
- Store in dry place
- Store away from sun-light
- T <20°c /68°F

# EXTENSION LINE

Bharat Medical Technology design top notch extension line which is made from soft bio-compatible medical grade material.

Male luer lock at the one end & 3 way stop cock at other end which are compatible to all standard equipments.

Available Length 10 & 100 cm.

It comes in sterile, individual pouch & comes in 25 Pcs in one Pack

Bulk Packing is 250 pcs in Box

## Features

- Clear throughout to allow easy monitoring
- Soft, frosted & kink resistant PVC tubing provides uninterrupted fluid movement
- Male luer lock at one end and 3-way stop cock at other enabling the user to run two lines simultaneously.
- smooth inner surfaces for laminar, non-turbulent flow

## INTENDED USE

Extension lines help by allowing different medications or treatments to be delivered through separate channels while using a single IV line

## Caution

- Do not reuse
- Store in dry place
- Store away from sun-light
- T <20°C /68°F

# INFUSION SET

Bharat Medical Technology manufacture premium quality infusion set to serve globe. Infusion set manufactured from safe material to be used in all kind of patients without any complication.

infusion set is safe to use as it is made with bio compatible material.

It's tube is smooth kink resistance with roller controller for unrestricted flow.

Bharat Medical Technology provide sterile, disposable & non pyrogenic individual packing.

Polybag of 10 which contains 25 sterile individual packing & it comes in 250 pcs box packing.

## Features

1. Chamber with sharp and easy piercing spike
2. Soft resistance medical grade p v c tube with standard size
3. "Y" connector
4. Luer lock connector
5. Drops per ml :20 drops

## INTENDED USE

An infusion set connects the insulin pump delivery device to your body.

## Caution

- Do not reuse
- Store in dry place
- Store away from sun-light
- T <20°c /68°F
